Dear Dr. Lederberg,

ISI) In reply to your request I have sent a copy of 'Peer Review -- Case History from the Australian Research Grants Committee', together with related papers. I am curious as to your reference to "the ASCA Topics service", which I presume is selecting out of the current literature papers on peer review. We have no such specialized information service in Australia and I would be grateful for details, and, if you can, ✓ copies of any 'print outs' dealing with recent papers on peer review -- for reason of a review in preparation on human rights in science.

Yours sincerely,

Clyde Manwell
